Lodhi Road, New Delhi-110003

**Subject: - Provision of MIS entry of toilet constructed other than baseline regarding,**

Dear Sir,

Chhattisgarh has achieved its ODF status on 31-12-2017. The state is grateful for your kind support and guidance in all matters of the Swachh Bharat Mission. As per the Baseline survey 2012-13, total 26,76,670 families were found without toilet facilities. 6,46,915 lakhs families either left out in baseline survey or become new families as per the report from districts in 2016. Hence, our state had taken decision at appropriate level to incorporate these families in target to ensure access to toilet to every family.

Chhattisgarh has actually constructed 32,23,585 IHHL in rural area to saturate every family to have access toilet facilities. Chhattisgarh state constructed 6,46,915 IHHL in the families left out in baseline survey. Total 5,42,106 IHHL constructed apart from baseline survey with other financial sources like MGNREGA, DMF, CSR, 14th finance, Own fund etc. but rest 1,04,809 (LOB) are left to be supported financially. Hence, our state has requested to Govt by our letter no. 2842, Dt. 27-12-2018 to provide financial assistance for these left out baseline families.

We have uploaded physical progress of all IHHL constructed in left out families. Hence, we needed a module to change the scheme name and few changes in beneficiary name of already reported 1,04,809 IHHL constructed in left out families.

We are grateful for all your kind support to state.

Thanking you.

Your's Sincerely

  
Mission Director
